23/ 14/11

Subd. 15/11

23. In accordance with the opinion of the Councillors, an independent provision for the purchase of the breeding bulls & their maintenance is necessary. The total cost is proposed in the draft order to be met from the Provincial & Dt funds in Equal proportions. Before a provision is fixed it is necessary to consult the Dt Boards, as mentioned in the Secretary's note ante. s. supra, as to whether they can meet half the expenditure to be incurred for the purpose. It seems therefore to be better to ask the Rev Commr to consult the District Boards in the matter and intimate to us what provision has to be made in the budget for the purpose.

24. A fair draft is subd & it has to be added to all the Eds in accordance with the order that may be passed. 25. The Rev Commr may be asked to see how the payment of

Offg. *Revenue Commissioner in Mysore.*

The Secretary to the Government of
His Highness the Maharaja of Mysore,
General & Revenue Departments.

SIR,

With reference to your letter No.R.7076-Agri.143-11-1, dated the 21st May 1912, on Dasara Representative Assembly subject No.125 of 1911, regarding the supply of breeding bulls to Veterinary Hospitals, I have the honor to state that the improvement of the local breeds of cattle is a matter of vital importance to the welfare of the ryots. By far the most important part of the ryot's capital is his cattle, and it is necessary that they should be the best possible. Without good cattle, improvement in agricultural practice is hardly possible. Cattle breeding is not at present conducted on any well defined lines. In some villages breeding bulls are kept by private owners for their use, and they are also hired out to others for a small payment. These bulls are not always chosen with sufficient care, and their use is often continued long after they have ceased to be serviceable. Even this is comparatively rare, and in the majority of villages there are only Basavas, whose indiscriminate covering of the village cows invariably deterirates the stock.

2. It is very necessary that, for some time more, cattle/

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

(1) Subject No. 129 of the Proceedings of the Representative Assembly of 1911 on the question of supplying breeding bulls to Veterinary Hospitals, and the reply of Government thereto.

SUBJECT No. 129.
Supply of breeding bulls to Veterinary Hospitals.
Mr. C. Vasudeva Rao, Chikmagalur Taluk.

Summary of discussion.—The representation made during the last session of the Assembly for attaching a breeding bull and a stallion to each Veterinary Dispensary, seems to have produced no effect as yet. The orders of Government may be communicated early.

Mr. C. Srinivasa Rao.—Two different kinds of bulls are necessary, one for improving the milking stock and the other for improving the breed of draught bullocks. Amrut Mahal and Hallikar bulls will produce good draught oxen, but the cows do not yield much milk nor are the heifers suitable for ploughing purposes. The cost of maintenance may be recouped by levying a small fee for serving.

Reply of Government.—Will be considered. Under Standing Orders, five Amrut Mahal bulls are supplied to each district for sale to private individuals at half price for breeding purposes and applications may be made accordingly.

(2) Letter No. 52, dated the 3rd July 1912, from the Revenue Commissioner in Mysore, furnishing his opinion in the matter.

With reference to your letter No. R. 7078—Agri. 143-11-1, dated the 21st May 1912, on Dasara Representative Assembly Subject No. 129 of 1911, regarding the supply of breeding bulls to Veterinary Hospitals, I have the honor to state that the improvement of the local breeds of cattle is a matter of vital importance to the welfare of the raiyats. By far the most important part of the raiyat's capital is his cattle, and it is necessary that they should be the best possible. Without good cattle, improvement in agricultural practice is hardly possible. Cattle breeding is not at present conducted on any well defined lines. In some villages breeding bulls are kept by private owners for their use, and they are also hired out to others for a small payment. These bulls are not always chosen with sufficient care, and their use is often continued long after they have ceased to be serviceable. Even this is comparatively rare, and in the majority of villages there are only Basavas, whose indiscriminate covering of the village cows invariably deteriorates the stock.

2. It is very necessary that, for some time more, cattle breeding should be conducted under the supervision of the Veterinary Department. At present, some Amrut Mahal bulls are supplied to District Boards for sale to raiyats at half price. This has no doubt done considerable good but not certainly to such an extent as is necessary. Four bulls of each of the local breeds (*viz.*, the Hallikar, the Amrut Mahal, and the Belladadana) and of the foreign breeds like the Delhi, the Guzerat, and the Nellore may be purchased by Government and attached to the Veterinary Hospitals. To begin with, these bulls may be utilized in the Districts of Bangalore, Mysore and Shimoga, and, after three years, they may be transferred to the other districts. Thus, in the course of about six years, we shall have gone over the whole State. The price of a good Hallikar bull will be about Rs. 250, of an Amrut Mahal bull Rs. 175-200, and of a bull of one of the foreign breeds Rs. 200-250. The maintenance charges of an animal, inclusive of the pay of a care-taker, will amount to Rs. 175-200 annually. A sum of Rs. 5,000 may be provided for the purchase of bulls.

No. R. 3852-69—AGRI. 143-11-3, DATED BANGALORE, THE 28TH JANUARY 1913.

ORDER THEREON.—Government agree with the Revenue Commissioner that while the improvement of the local breed of cattle is of vital importance to the raiyats, it is very desirable that the breeding operations should be conducted under the supervision of the Veterinary Department. They are, accordingly, pleased to direct that a breeding bull may be kept in each of the Veterinary Hospitals and Dispensaries in the State, provided that the District Boards concerned are prepared to bear half the cost of purchasing the bulls and of their maintenance, the other half of the charge being borne by the Government. A small fee, which may be fixed by the Revenue Commissioner in consultation with the District Boards, may

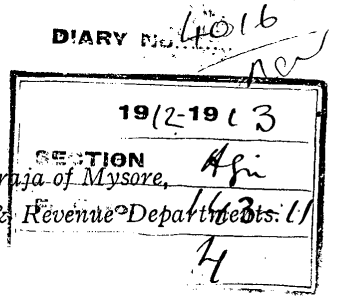
Bangalore, 3rd February 1913. ~~xxx~~

FROM

K. Doraswami Iyer Esquire,

Revenue Commissioner in Mysore.



To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
General & Revenue Departments.

SIR,

With reference to Government Order No. R.3852-69/Agri.143-11-3, dated the 28th January 1913, directing that a breeding bull may be kept in each of the Veterinary Hospitals and Dispensaries in the State, I have the honor to state that I have written to the various District Boards consulting them in the matter. Meanwhile I think it desirable to be prepared to bring the scheme into effect in the corse of the current official year in case, and as far as, it should be found feasible. But funds for this purpose are not available in the budget for 1912-13. I therefore request that Government may be pleased to make a special grant of ₹500/- to meet the Government share of the cost of purchasing and maintaining breeding bulls for such Districts as may come forward to bear their quota of the cost, before the end of this year.

2. As for the year 1913-14, we should provide for the purchase and maintenance of eight breeding bulls as it is not possible at present to know how many Hospitals and Dispensaries may be supplied with bulls before the end of the current year. Taking the cost of each bull to be about ₹250/- and its annual maintenance charges, including the pay of the caretaker, at ₹200/-, the cost to Government during the year 1913-14 will be about ₹1800/-.

DIARY No. 5694/R.
19/5/1912
SECTION: Agri
No. 147-11
Sub. 1

Sir,

I have the honour to state that we have long been in need of a mechanic for the Experimental Farm Hebbal to make the repairs that are so frequently necessary on Farm implements and machinery. The result is that work is at times delayed until repairs can be made in Bangalore. The services of such a man could also be utilized for ~~selling~~ setting up implements and machinery purchased from the Department and as these sales ^ such implements are constantly becoming larger the need for such a man is increasing. Mechanics are employed on many of the Experimental Farms in British India and have to my own knowledge, proved very useful in connection with demonstration work. To get a competent man, it will be necessary to pay him a reasonable wage and give him a small prospect of increase. I believe that Rs. 20-2-30 would be a fair wage.

I have the honour therefore request Government to include in the budget of this Department for the coming year under establishment "Experimental Farm" the pay of a mechanic on Rs. 20-2-30 a month

GPB—1,000—11-8-11

The services of this man might also be used for giving some elementary mechanical training to students who work on the Farm.

I have the honour to be,

Sir,

Your most obedient servant

Leslie Coleman.

Officer in charge.

Exempt the officials of the Agl Dept from the operation of the rule about 15 days' limit when they occupy the Musafirkhana at Koppa while engaged in Koppa investigation work, the rent for the room where fruit articles are kept being charged to the office contingencies to be finally debited to the Sirkari Canl fund -i and state that in regard to the Musafirkhanas in the Shimoga Dt the Dt Bd is not in favor of their being occupied by the staff as proposed and that arrangements may be made with the Dy Canl beforehand for securing accommodation in suitable houses for rent.

NOTE—Contn. sheet.

GPB—65,000—17-6-12.

ble for the storage of the chemicals etc. and for living in.

3 It may be ~~said~~ same that the difficulty may be got over by hiring private houses. Kallurkatte and Koppa, I believe, consist mainly of quarters built by Government for officials. In the others, a suitable house is very difficulty to find and then there is the strong prejudice on the part of the landlords against letting their houses out to people of other castes.

4 I therefore beg to make the following recommendations and hope that they will meet with the favourable consideration of ~~the~~ Government.

1.) Two rooms at each of the Mussafarkanas at Sorab, Talguppe, Kallurkatte, Agumbe, and Koppa may be set apart for the use of this Department-one for the storage of Government Chemicals,etc., and one for the man on duty there to live in. Only one room will be required at Thirthahalli, as it is only used as a convenient base of supplies for Agumbe, and Koppa, and no one lives there. I am hoping that this may not prove too much of an inconvenience to the travelling public as I hear that there are on an average about six rooms in a Mussafarkana and not much travelling is generally done during the monsoon.

2.) The fifteen days limit imposed by the G.O. for stay at a Mussafarkana may be held to be ~~imperative~~ inoperative in the case of the officers of this Department.

3.) The room utilised for storage of Government articles may be given rent free; or the rent charged may be ordered to be paid by the office. In the case of Koleroga work, it may eventually be debited to the Supari Cess Fund

4.) The persons in charge of these operations draw salaries ranging from Rs. 20 to 10 per month and the rate of 2as per day is rather high. A concession similar to what obtains in the case of Travellers' Bungalow may be extended [illegible]

They may be asked to pay half rates for their occupation.

If Government are not pleased to view these recommendations favourably, the alternative will be to let them stop together in one or two places where suitable accomodation could be readily had and allow them to make very frequent journeys to their places of work. This, I submit, would in the ~~event~~ end be more expensive to Government.

I have the honour to be,

Sir,

Your most obedient servant,

H Mitchell B.A.,F.C.S.
